

Deliverable Worksheet for JSON homework

URL for json.html online

URL: https://miaxiaoyu.github.io/CS120_Web/JSON_jQuery/json.html

Were there any problems in this assignment you could not complete?

No, but in Part 3, I used jQuery event binding `$('#filterButton').click(function() {...})` instead of the HTML onclick attribute approach `onclick="filterSongs()"` with a separate function `filterSongs()` (what we see in the week5.pdf). Both methods achieve the same functionality, but I chose the jQuery approach for consistency with the other jQuery methods used in the assignment."
